Understanding the *Power Up* Concept

Panicked or perplexed - this is how the Horse begins his training.

Opposition - lack of understanding makes the horse resist the training.

Willing - the Horse begins to make changes and work with the Trainer.

Entrust - The Horse readily gives over his freewill to the Trainer.

Respects - and relies on the Trainer for his direction.

Understanding - the Horse develops confidence in the Trainer's methods.

Partnership - the Trainer and Horse establish a lifelong alliance.
